

PROBE-R3 — E2 v27.7 + E1 v2.7

Two runs. Thirteen records against two job descriptions: the eleven F-battery fixtures and Runyarin on the Happily CSA JD, Krit on the Bangkok HR Operations JD. Winnow pipeline, last probe before deploy.

Run date 2026-09-05 · reported 2026-09-06 · for the master thread

About this document

This is the report and the evidence for **PROBE-R3**, run under PROBE-R3.md (master thread, 2026-09-06) with the operator's standing override: do not stop or halt for anything.

Nothing here was scored by the session that produced it. Predictions in the brief are printed beside what happened and marked; findings are recorded as findings; none was fixed.

Two assets were **added** — stage3-bootstrap-v27.7.txt and stage1-bootstrap-v2.7.txt — both hash-verified before being manifested, both manifest entries new, no existing entry edited, and config.json repointed at them. intake.py and run.py were verified unchanged. load_verified_assets() was silent before the change and after. There is no HASH MISMATCH.

Two things the brief asked for could not be done, and are recorded rather than worked around. Kittiya is not in this workspace under any spelling, so thirteen of the fourteen named records ran. FRONTEND-FIX-01-honorific-strip.md was not acted on: it is a spec for whoever holds render.py, and render.py does not exist here. Section 0 gives the working for both.

Section order is the brief's own. Section 11 — every artifact, both passes, all thirteen records, both runs — is the appendix and sits last. Nothing is omitted or abridged.

Companion file. PROBE-R3-EVIDENCE.zip carries the six run directories exactly as run.py wrote them, plus the fixtures, both JDs as fed to the engines, the frozen requirement sets, config.json, manifest.json, the two added assets and their diffs, and FRONTEND-FIX-01-honorific-strip.md untouched.

0. Execution record

The brief names fourteen records. Thirteen ran. Kittiya is not in this workspace — no résumé, no run directory, no numbered text, under that spelling or any other. The only occurrences of the name anywhere in the workspace are inside the two markdown files of probe-r3.zip itself; FRONTEND-FIX-01-honorific-strip.md places her at R4 Ms.Kittiya Anantapatthamanond under **v27.5**, a probe whose inputs are not in winnowpipelineCURRENT20260906.zip. Every candidate present in the workspace was enumerated before concluding this:

Arisa Boonmee · Kanokwan Ratanaporn · MR. GIDJATORN SOOTHSUK · Preecha Thongdee · RUNYARIN L. · Somchai Wongsakul · [MR. PUPAT CHATAMEENA] ·
นางสาว Pimchanok Srisawat (prior run directories)
plus the bangkok / siam-fnb / capability-panel battery fixtures

PROBE-R3A-S2 and PROBE-R3B-S2 therefore carry **Runyarin only**. No substitute was chosen and nothing was invented. Everything R3-P1 asks of Kittiya — *any line naming a specific product* — is unanswerable from this workspace and is reported as such.

FRONTEND-FIX-01-honorific-strip.md was not acted on. render.py does not exist anywhere in this workspace; the file was read only far enough to confirm it is a frontend spec and to identify Kittiya. It is carried verbatim in the evidence bundle for whoever holds render.py.

Runyarin was supplied as her intake-normalized text. Her source PDF (4235a383-RunyarinL_CVUpdated2025.pdf) is not in the workspace; runs/20260830-070037/R2/normalized.txt is. run.py numbers a .txt with the same number_lines intake uses, and the numbering it produced is **byte-identical** to the numbering the original intake produced — verified before the run. Same deviation, same proof, as the Happily JD in PROBE-FBAT-REPORT §0.

1. Setup

1.1 Hashes — all four verified

file	brief	measured	
assets/stage1-bootstrap-v2.7.txt	eef89404917d1ed1f36259ed3162862af65c3a74c434107a887879f0c49373af	eef89404917d1ed1f36259ed3162862af65c3a74c434107a887879f0c49373af	M AT C H
assets/stage3-bootstrap-v27.7.txt	d2216aa4379a57369cb664d62e998e42475f0499ebbcd538e058c2d3268b0b7d	d2216aa4379a57369cb664d62e998e42475f0499ebbcd538e058c2d3268b0b7d	M AT C H
intake.py	4b8955a44aee03c0fc745935792ae27106ca2f4c5904184fbda920090607e58a	4b8955a44aee03c0fc745935792ae27106ca2f4c5904184fbda920090607e58a	M AT C H
run.py	e1b0a6be026720bc72815b4f9f4fc37bfd459e8162a5b2de3c34607dea027d8a	e1b0a6be026720bc72815b4f9f4fc37bfd459e8162a5b2de3c34607dea027d8a	M AT C H

All four match: **True**. intake.py 03 and run.py 05 are the files installed in PROBE-FBAT-REPORT \$13 and were not touched here.

1.2 The ADD — manifest, before and after

manifest.json carried 10 assets before this probe and carries 12 after. The two new entries were **added**; no existing entry was edited, and the two superseded assets are still present and still hash to their manifested values:

asset	sha256	
stage1-bootstrap-v2.6.txt	ded8db1d8da9b468240280b6b99882d8a3fa6465e656a87d60abb8de6d4f8f7a	superseded, untouched
stage3-bootstrap-v27.6.txt	c4b303113060f868a33a4b98c692b03e5194d57549a8489e4907f67d9527876d	superseded, untouched
stage1-bootstrap-v2.7.txt	eef89404917d1ed1f36259ed3162862af65c3a74c434107a887879f0c49373af	ADDED this probe
stage3-bootstrap-v27.7.txt	d2216aa4379a57369cb664d62e998e42475f0499ebbcd538e058c2d3268b0b7d	ADDED this probe

load_verified_assets() — silent, exit 0, before the ADD and after.

1.3 config.json after repointing

```
{
  "e1": {
    "base_url": "https://api.deepseek.com/chat/completions",
    "api_key_env": "DEEPSEEK_API_KEY",
    "params": {
      "model": "deepseek-v4-flash",
      "max_tokens": 65536,
      "thinking": {
        "type": "enabled"
      }
    },
    "reasoning_effort": "high"
  },
  "e2": {
    "base_url": "https://api.openai.com/v1/chat/completions",
    "api_key_env": "OPENAI_API_KEY",
    "params": {
      "model": "gpt-5.1",
      "max_completion_tokens": 8000,

```

```

        "temperature": 0.0,
        "reasoning_effort": "none"
    },
    "e2_pass2": {
        "base_url": "https://api.openai.com/v1/chat/completions",
        "api_key_env": "OPENAI_API_KEY",
        "params": {
            "model": "gpt-5.1",
            "max_completion_tokens": 32000,
            "reasoning_effort": "high"
        }
    },
    "e1_asset": "stage1-bootstrap-v2.7.txt",
    "e2_asset": "stage3-bootstrap-v27.7.txt"
}

```

e1_asset and e2_asset repointed; every other key byte-identical to the F-battery config. **No extraction key**, so e2_pass2 (gpt-5.1, reasoning_effort high) governs both extraction passes.

2. Extraction — the frozen sets, and the diff against the prior sets

The new E2 hash makes a new cache key, so every JD re-extracts. **Two distinct JDs, not three:** PROBE-R3A-FBAT and PROBE-R3A-S2 share the Happily JD, so it extracts once in FBAT and S2 cache-hits it inside the same run A. Bangkok extracts in S3-bkk. **Four extraction calls in run A, zero in run B** — against the brief's estimate of six.

- PROBE-R3A-FBAT (Happily JD): **fresh extraction**
- PROBE-R3B-FBAT (Happily JD): cache hit
- PROBE-R3A-S2 (Happily JD): cache hit
- PROBE-R3B-S2 (Happily JD): cache hit
- PROBE-R3A-S3-bkk (Bangkok JD): **fresh extraction**
- PROBE-R3B-S3-bkk (Bangkok JD): cache hit

2.1 Happily JD — frozen set under v27.7

Pass 1:

Customer Success Associate – Requirements Extracted (parseable only)

- MANDATORY – Bachelor's degree in business, marketing, or a related field.
- MANDATORY – Experience in a customer-facing role, with a focus on customer success, training, or support.
- MANDATORY – Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.
- MANDATORY – Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.
- MANDATORY – Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.
- MANDATORY – Proficiency in both written and spoken English and Thai.

All other listed "requirements" are non-parseable in this reality and exert no effect.

Pass 2:

Customer Success Associate – Requirements Extracted (parseable only)

- MANDATORY – Bachelor's degree in business, marketing, or a related field.
- MANDATORY – Experience in a customer-facing role, with a focus on customer success, training, or support.
- MANDATORY – Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.
- MANDATORY – Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.
- MANDATORY – Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.
- MANDATORY – Proficiency in both written and spoken English and Thai.

All other listed "requirements" are non-parseable in this reality and exert no effect.

Passes byte-identical: **True**. Frozen set == pass 2: **True**.

6 MANDATORY, 0 PREFERRED.

Diff against the v27.6 set frozen in PROBE-FBAT-A:

```
--- v27.6 (PROBE-FBAT-A)
+++ v27.7 (PROBE-R3A-FBAT)

```

Customer Success Associate – Requirements Extracted (parseable only)

- MANDATORY – Bachelor's degree in business, marketing, or a related field.
- MANDATORY – Experience in a customer-facing role with a focus on customer success, training, or support.
- + MANDATORY – Bachelor's degree in business, marketing, or a related field.

- + MANDATORY – Experience in a customer-facing role, with a focus on customer success, training, or support.
- MANDATORY – Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.
- MANDATORY – Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.
- MANDATORY – Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.

2.2 Bangkok JD — frozen set under v27.7

Pass 1:

HR Operations & Recruitment Systems Manager – Requirements Extracted (parseable only)

- MANDATORY – Bachelor's degree or equivalent professional experience in HR operations, recruitment operations, or workforce systems
- MANDATORY – 5+ years of experience in HR operations, recruitment operations, talent acquisition, people operations, or workforce planning
- MANDATORY – Experience using an ATS or HRIS such as Workday, Greenhouse, Lever, BambooHR, Manatal, Zoho Recruit, SmartRecruiters, SAP SuccessFactors, or similar
- MANDATORY – Ability to build reports, trackers, or dashboards using Excel, Google Sheets, Looker Studio, Power BI, Tableau, or similar tools
- MANDATORY – Experience improving recruitment workflows, onboarding, retention, scheduling, or employee data processes
- MANDATORY – Experience handling confidential employee or candidate information
- MANDATORY – Strong English communication skills for reports and leadership updates
- ESSENTIAL-FUNCTION – Able to work hybrid in Bangkok 3 days per week

Pass 2:

HR Operations & Recruitment Systems Manager – Requirements Extracted (parseable only)

- MANDATORY – Bachelor's degree or equivalent professional experience in HR operations, recruitment operations, or workforce systems
- MANDATORY – 5+ years of experience in HR operations, recruitment operations, talent acquisition, people operations, or workforce planning
- MANDATORY – Experience using an ATS or HRIS such as Workday, Greenhouse, Lever, BambooHR, Manatal, Zoho Recruit, SmartRecruiters, SAP SuccessFactors, or similar
- MANDATORY – Ability to build reports, trackers, or dashboards using Excel, Google Sheets, Looker Studio, Power BI, Tableau, or similar tools
- MANDATORY – Experience improving recruitment workflows, onboarding, retention, scheduling, or employee data processes
- MANDATORY – Experience handling confidential employee or candidate information
- MANDATORY – Strong English communication skills for reports and leadership updates
- ESSENTIAL-FUNCTION – Able to work hybrid in Bangkok 3 days per week

Passes byte-identical: **True**. Frozen set == pass 2: **True**.

7 MANDATORY, 0 PREFERRED.

No prior Bangkok set under any asset version is present in this workspace to diff against; the four cached sets in cache/requirement-sets/ are all keyed to v28.10 and none is this JD. Recorded, not a halt.

Analytics & Tracking: GA, Adjust, Appsflyer	Runyarin	admitted (L30)	admitted (L30)

Kittiya — unanswerable. Any line naming a specific product cannot be checked: the record is not in this workspace (\$0).

Every line R3-P1 names is admitted, in both runs. This is E1 v2.7’s purpose and it holds on every record where the line exists.

3.2 Lines that must STILL be NULLED — generic class words

line	record	run A	run B
Customer Success Onboarding Training...	F2	NULled (L26)	NULled (L26)
Customer Success Onboarding Training...	F4	NULled (L24)	NULled (L24)
Customer Success Onboarding Training...	F6	NULled (L23)	NULled (L23)

3.3 The boundary the ruling leaves to E1 — quote, do not score

Runyarín's EXCEL, POWERPOINT, WORD as bare one-word lines. Excel and Word are named products; POWERPOINT likewise. Whether a bare product name on its own line is an instrument or an inventory is exactly what the ruling hands to E1's judgment.

line	text	run A	run B
L4	EXCEL	admitted	admitted
L5	POWERPOINT	admitted	admitted
L6	WORD	admitted	admitted

4.1 Every , both runs

R3A — F5

 Experience in a customer-facing role, with a focus on customer success, training, or support.: Not Met (experience listed is Warehouse Operations Supervisor and Inventory Clerk, both focused on internal warehouse processes with no customer-facing, success, training, or support responsibilities described).

R3B — F5

 Experience in a customer-facing role, with a focus on customer success, training, or support.: Not Met (experience listed is in warehouse operations supervision and inventory; no customer-facing, customer success, training, or support roles described).

 Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: Not Met (no responsibilities or achievements related to customer success, customer outcomes, or translating customer needs into actionable strategies are described).

R3A — F6

 Experience in a customer-facing role, with a focus on customer success, training, or support.: Not Met (work history lists warehouse operations supervisor and inventory clerk positions focused on internal operations, with no described customer-facing, customer success, training, or support responsibilities).

 Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: Not Met (no described experience with customer success work or translating customer needs into actionable strategies).

R3B — F6

✗ Experience in a customer-facing role, with a focus on customer success, training, or support.: Not Met (experience shown is in warehouse operations supervision and inventory management; no stated customer-facing, customer success, training, or support role).

R3A — F7

✗ Proficiency in both written and spoken English and Thai.: Not Met (record states professional working proficiency in English but explicitly states Thai — none, so Thai proficiency requirement is not satisfied).

R3B — F7

✗ Proficiency in both written and spoken English and Thai.: Not Met (record shows professional working proficiency in English and explicitly states Thai — none; no basis for override because this is a direct language-skill requirement, not substitutable by other achievements).

5. R3-P2 — what the admitted tool lists do downstream

5.1 Krit — the ATS/HRIS and dashboards requirements

Krit's L3, the line E1 v2.7 was changed to admit:

L3: Skills: Workday, Greenhouse, SAP SuccessFactors, BambooHR, Manatal, Lever, Power BI, Tableau, Looker Studio, end-to-end hiring transformation

Every requirement line in Krit's finals that names a tool class or a product, both runs:

Run A — 2 of 8 requirement lines:

✓ Experience using an ATS or HRIS such as Workday, Greenhouse, Lever, BambooHR, Manatal, Zoho Recruit, SmartRecruiters, SAP SuccessFactors, or similar: (MET-EVID — Skills line lists Workday, Greenhouse, SAP SuccessFactors, BambooHR, Manatal, Lever)

✓ Ability to build reports, trackers, or dashboards using Excel, Google Sheets, Looker Studio, Power BI, Tableau, or similar tools: (MET-EVID — Skills line lists Power BI, Tableau, Looker Studio; experience line notes building leadership dashboards that improved hiring efficiency by 40%)

Run B — 2 of 8 requirement lines:

✓ Experience using an ATS or HRIS such as Workday, Greenhouse, Lever, BambooHR, Manatal, Zoho Recruit, SmartRecruiters, SAP SuccessFactors, or similar: (MET-EVID — Skills list includes Workday, Greenhouse, SAP SuccessFactors, BambooHR, Manatal, Lever)

✓ Ability to build reports, trackers, or dashboards using Excel, Google Sheets, Looker Studio, Power BI, Tableau, or similar tools: (MET-EVID — Skills list includes Power BI, Tableau, Looker Studio; experience bullet notes leadership dashboards that improved hiring efficiency)

5.2 F1-F11 — the Happily JD names no tools

The admitted HubSpot, Zendesk, Metabase, Google Sheets, LINE Official Account, Notion line should change no verdict and no tag. Every requirement line in any F-fixture final whose evidence cites one of those products:

run A F2

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Reduced time-to-first-report from 21 to 9 days by rebuilding the onboarding checklist; used weekly usage dashboards in Metabase to identify low-engagement accounts and trigger interventions.

run A F3

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login-frequency thresholds to trigger outreach; redesigned onboarding based on time-to-first-report metric; reduced topic-specific ticket volume by 40% through targeted help-centre articles.

run A F4

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: MET-EVID (Used weekly usage dashboards in Metabase to identify low-engagement accounts and intervene; rebuilt onboarding process based on performance metrics)

run A F7

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login metrics to target outreach; rebuilt onboarding checklist to cut time-to-first-report from 21 to 9 days.

run A F8

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login metrics to trigger outreach; redesigned onboarding based on data, reducing time-to-first-report by 57%.

run A F11

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID)

Used Metabase dashboards and login metrics to identify at-risk accounts and intervene; redesigned onboarding process to improve time-to-first-report; tracked renewal rate improvements.

run B F1

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login metrics to identify at-risk accounts and designed interventions; optimized onboarding process to achieve significant cycle-time reduction.

run B F2

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Reduced time-to-first-report from 21 to 9 days by redesigning onboarding; used weekly usage dashboards in Metabase to identify low-engagement accounts and intervene.

run B F3

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID: regularly reviewed Metabase dashboards and login thresholds to identify at-risk accounts and redesigned onboarding flow to improve time-to-first-report)

run B F6

✓ Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-INF) As a warehouse operations supervisor managing 14 forklift operators across two shifts and scheduling staffing, candidate has demonstrated communication and interpersonal skills transferable to engaging and educating customers.

run B F7

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login thresholds to trigger outreach; redesigned onboarding to cut time-to-first-report from 21 to 9 days; tracked and improved renewal metrics.

run B F8

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID: Used Metabase dashboards and login metrics to trigger outreach; redesigned onboarding process based on performance data)

run B F11

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login metrics to trigger outreach; rebuilt onboarding process to achieve specific cycle-time reduction; tracked ticket resolution metrics and impact of help-centre content.

6. R3-P4 — the degree override on F3 and F4

R3A — F3

⚠ Built and improved customer success processes and outcomes → Bachelor's degree in business, marketing, or a related field.: (equivalence explanation) 4+ years in customer-facing roles performing onboarding, training, renewals, and support, including rebuilding onboarding checklists and improving renewal rates, demonstrates business and customer-success capability equivalent to a related bachelor's degree.

R3B — F3

⚠ [Several years as Customer Success Executive and Client Support Specialist in B2B software with measurable impact on onboarding, renewals, and support] → Bachelor's degree in business, marketing, or a related field.: (equivalence explanation: sustained success in customer success/support with quantifiable outcomes—46 B2B accounts onboarded with structured training, renewal rate improvement from 78% to 91%, and process optimization—demonstrates capability equivalent to a related bachelor's degree)

R3A — F4

⚠ Customer Success Executive (Sep 2022–Aug 2026) and Client Support Specialist (Jun 2020–Feb 2022) → Bachelor's degree in business, marketing, or a related field.: (equivalence explanation: 4+ years of directly relevant customer success and support experience in B2B software, including onboarding, training, and data-driven customer work, demonstrates capability equivalent to the specified degree requirement)

R3B — F4

⚠ Multi-year customer success and support achievements with strong metrics (Customer Success Executive 2022–2026; Client Support Specialist 2020–2022; onboarded 46 B2B accounts; reduced time-to-first-report from 21 to 9 days; improved renewal rate from 78% to 91%; wrote 22 help-centre articles reducing tickets 40%) → Bachelor's degree in business, marketing, or a related field.: Experience and quantified results in customer success demonstrate capability equivalent to the requested degree.

Deleted-threshold check. v27.7 removed the 20 years + ... and 10+ years ... bullets. Grep of F3 and F4's finals for those numbers, both runs: **0 hit(s)**.

7. R3-P5 — pairs

pair	run	same verdict	same prefix per requirement	same tag
F1/F2	A	yes	yes	yes
F1/F2	B	yes	yes	no — 1
F3/F4	A	yes	yes	yes
F3/F4	B	yes	yes	no — 1
F5/F6	A	yes	no — 3	no — 3
F5/F6	B	yes	no — 1	no — 2
F1/F11	A	yes	yes	no — 1
F1/F11	B	yes	yes	yes
F9/F10	A	yes	no — 3	no — 3
F9/F10	B	yes	yes	yes

Every difference, quoted:

F1/F2 — run B slot 3 — prefix , tag MET-EVID/MET-INF

F1:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-EVID) Improved renewal rate from 78% to 91% by monitoring usage dashboards and proactively engaging low-usage accounts; rebuilt onboarding checklist to reduce time-to-first-report from 21 to 9 days.

F2:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-INF) Multi-year Customer Success Executive role in B2B SaaS, responsible for onboarding, lifecycle management, and improving renewal rate from 78% to 91%.

F3/F4 — run B slot 3 — prefix , tag MET-EVID/MET-INF

F3:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-EVID: used customer usage data to trigger outreach, rebuilt onboarding checklist to cut time-to-first-report from 21 to 9 days, and drove renewal rate from 78% to 91%)

F4:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: MET-INF (Redesigned onboarding to cut time-to-first-report from 21 to 9 days, monitored usage dashboards to identify low-engagement accounts, and drove renewal rate increase from 78% to 91%.)

F5/F6 — run A slot 3 — prefix , tag MET-INF/—

F5:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-INF) Bachelor of Business Administration (Marketing) plus responsibility for reducing picking errors from 3.1% to 0.9% by introducing barcode scanning indicate customer-focused thinking and the ability to translate stakeholder needs into concrete process changes.

F6:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: Not Met (no described experience with customer success work or translating customer needs into actionable strategies)

slot 4 — prefix , tag —/MET-EVID

F5:  Data-driven process improvement in operations → Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (equivalence) Reduced picking errors from 3.1% to 0.9% by introducing barcode scanning and maintained detailed compliance logs, demonstrating strong analytical, data-driven problem solving applicable to designing and delivering interventions.

F6:  Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID —

reduced picking errors from 3.1% to 0.9% by introducing barcode scanning, demonstrating strong analytical problem-solving and data-driven intervention design)

slot 5 — prefix , tag —/MET-INF

F5:  Supervisory role over 14 operators → Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (equivalence) Supervising 14 operators across two shifts and coordinating staffing requires clear communication, coaching, and interpersonal skills that can transfer to engaging and educating customers.

F6:  Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-INF — supervised 14 operators across two shifts, implying strong communication and interpersonal skills transferable to engaging and educating customers)

F5/F6 — run B slot 3 — prefix , tag —/NO-CONTRA

F5:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: Not Met (no responsibilities or achievements related to customer success, customer outcomes, or translating customer needs into actionable strategies are described).

F6:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (NO-CONTRA) Record provides no specific evidence for or against this skill; nothing in the stated experience contradicts the ability to have this understanding.

slot 4 — prefix , tag MET-INF/MET-EVID

F5:  Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-INF) Reduced picking errors from 3.1% to 0.9% by introducing barcode scanning at the pack station, demonstrating data-driven problem solving and process intervention design.

F6:  Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Reduced picking errors from 3.1% to 0.9% by introducing barcode scanning at the pack station, demonstrating strong analytical, problem-solving, and data-driven process improvement skills.

F1/F11 — run A slot 3 — prefix , tag MET-INF/MET-EVID

F1:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-INF) Onboarded 46 B2B accounts, ran structured 3-session trainings for HR teams, reduced time-to-first-report from 21 to 9 days, and increased renewal rate from 78% to 91% through proactive, usage-based outreach, demonstrating application of customer success principles to customer needs.

F11:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-EVID) Onboarded 46 B2B accounts, rebuilt onboarding checklist to reduce time-to-first-report from 21 to 9 days, monitored usage dashboards and proactively contacted low-usage accounts, increasing renewal rate from 78% to 91%.

F9/F10 — run A slot 3 — prefix , tag —/MET-INF

F9:  Built capability in customer success through multi-year support roles → Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (equivalence) 5+ years in customer support/service roles reasonably demonstrate applied customer success practices and translating customer needs into actions, despite titles not explicitly stating “customer success.”

F10:  Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.:

(MET-INF) Raised customer satisfaction from 71% to 88% and managed 1,200+ accounts, indicating effective strategies based on customer needs and outcomes.

slot 4 — prefix , tag —/MET-EVID

F9:  Multi-year support roles resolving customer issues → Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (equivalence) Sustained work as Customer Support Specialist and Customer Service Officer implies regular problem-solving using customer information to resolve issues and improve outcomes.

F10:  Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Improved satisfaction scores and reduced first-response time from 6 hours to 40 minutes, demonstrating data-driven analysis and problem-solving to design support improvements.

slot 5 — prefix , tag —/MET-INF

F9:  Customer-facing support and service roles → Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (equivalence) Long-term success in customer support and service roles requires strong verbal and written communication and ongoing customer education.

F10:  Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-INF) Customer-facing roles over multiple years with significant satisfaction improvements and large account volume imply strong communication and relationship-building.

B	Runyarin	0	0	0	0	0	0
B	Krit	2	0	0	0	0	2

Grand total of raw string hits across all twenty-six finals: **4**.

Every hit, quoted, with its source:

```
run A Krit [Bangkok]
- ESSENTIAL-FUNCTION — Able to work hybrid in Bangkok 3 days per week
run A Krit [Bangkok]
✓ Able to work hybrid in Bangkok 3 days per week: (NO-CONTRA — No evidence
of inability to meet stated on-site pattern)
run B Krit [Bangkok]
- ESSENTIAL-FUNCTION — Able to work hybrid in Bangkok 3 days per week
run B Krit [Bangkok]
✓ Able to work hybrid in Bangkok 3 days per week: (NO-CONTRA — no stated
limitation affecting ability to follow a hybrid schedule; confirm details
during hiring process)
```

All of them are the same requirement, echoed from the Bangkok JD: Able to work hybrid in Bangkok 3 days per week (JD line 17). It is the employer's stated work model, not the candidate's own location. Krit's record states no personal location — the only occurrence of Bangkok in it is the employer name Bangkok Learning Group inside the summary line, which E1 NULLed in both runs.

The invariant as written — *own protected attributes in any final: zero* — holds. Zero hits on any of the twenty-two F-fixture finals, and zero candidate-sourced location tokens anywhere. Recorded here with the raw count rather than a filtered one, so the master thread sees what the grep saw.

8.3 Extraction sets — PREFERRED, Responsibilities, protected tokens

set	PREFERRED	Responsibilities items	protected tokens
Happily	0	0	0

R1 Kanokwan Ratanaporn - Advance

✓ Bachelor's degree in business, marketing, or a related field.: (MET-EVID) Bachelor of Business Administration (Marketing), 2016–2020.

✓ Experience in a customer-facing role, with a focus on customer success, training, or support.: (MET-EVID) Customer Success Executive (Mar 2022–Aug 2026) and Client Support Specialist (Jun 2020–Feb 2022), working directly with B2B customers on onboarding, training, and support.

✓ Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-INF) Onboarded 46 B2B accounts, ran structured 3-session trainings for HR teams, reduced time-to-first-report from 21 to 9 days, and increased renewal rate from 78% to 91% through proactive, usage-based outreach, demonstrating application of customer success principles to customer needs.

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Regularly reviewed usage dashboards to identify low-usage accounts and intervene; rebuilt the onboarding checklist to achieve a 57% faster time-to-first-report; used ticket and help-centre data to drive content that reduced ticket volume by 40%.

✓ Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-EVID) Delivered multi-session trainings for each new HR team, handled 30–40 support tickets per day across channels, and authored 22 help-centre articles in two languages to educate users.

✓ Proficiency in both written and spoken English and Thai.: (MET-EVID) Languages section lists Thai fluency and English professional working proficiency.

✓ Experience in a customer-facing role, with a focus on customer success, training, or support.: (MET-EVID) Customer Success Executive (Mar 2022–Aug 2026) and Client Support Specialist (Jun 2020–Feb 2022) in B2B SaaS, handling onboarding, training, and support.

✓ Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-EVID) Improved renewal rate from 78% to 91% by monitoring usage dashboards and proactively engaging low-usage accounts; rebuilt onboarding checklist to reduce time-to-first-report from 21 to 9 days.

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login metrics to identify at-risk accounts and designed interventions; optimized onboarding process to achieve significant cycle-time reduction.

✓ Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-EVID) Ran 3-session training sequences for each new HR team; wrote 22 help-centre articles that reduced ticket volume by 40%; handled 30–40 tickets per day with 85% resolved within one business day.

✓ Proficiency in both written and spoken English and Thai.: (MET-EVID) Languages section lists Thai and English with professional working proficiency; created help-centre articles in both languages.

R3 Somchai Wongsakul - Advance – Verify

✎ Built and improved customer success processes and outcomes → Bachelor's degree in business, marketing, or a related field.: (equivalence explanation) 4+ years in customer-facing B2B SaaS roles with clear ownership of onboarding, training, renewals, and support, including rebuilding onboarding checklists and improving renewal rates, demonstrates business and customer-success capability equivalent to a related bachelor's degree.

✓ Experience in a customer-facing role, with a focus on customer success, training, or support.: (MET-EVID) Customer Success Executive (2022–2026) onboarding and training 46 B2B HR analytics accounts; Client Support Specialist (2020–2022) handling 30–40 tickets/day and writing help-centre content.

✓ Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-EVID) Improved renewal rate from 78% to 91% by monitoring usage dashboards and proactively contacting low-usage accounts; rebuilt onboarding checklist to cut time-to-first-report from 21 to 9 days, showing strategic, outcome-focused CS practice.

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login-frequency thresholds to trigger outreach; redesigned onboarding based on time-to-first-report metric; reduced topic-specific ticket volume by 40% through targeted help-centre articles.

✓ Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-EVID) Ran 3-session training sequences for each new HR team; served as primary support handling high daily ticket volume; authored 22 help-centre articles used by customers.

△ REQ-LANG Proficiency in both written and spoken English and Thai.: (verification required - record silent or partial on this language; interview prompt) States Thai fluency and English professional working proficiency with test score; practical proficiency appears strong but exact level for this role should be confirmed in interview.

Customer Success Associate – Requirements Extracted (parseable only)

- MANDATORY – Bachelor's degree in business, marketing, or a related field.
- MANDATORY – Experience in a customer-facing role, with a focus on customer success, training, or support.
- MANDATORY – Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.
- MANDATORY – Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.
- MANDATORY – Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.
- MANDATORY – Proficiency in both written and spoken English and Thai.

All other listed "requirements" are non-parseable in this reality and exert no effect.

R7 Kanokwan Ratanaporn - Do Not Advance

✓ Bachelor's degree in business, marketing, or a related field.: (MET-EVID) Bachelor of Business Administration (Marketing), 2016–2020.

✓ Experience in a customer-facing role, with a focus on customer success, training, or support.: (MET-EVID) Customer Success Executive (Mar 2022–Aug 2026) and Client Support Specialist (Jun 2020–Feb 2022) working with B2B accounts, onboarding, training, and support.

✓ Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-INF) Designed and executed onboarding and training for 46 B2B accounts; monitored usage dashboards and proactively engaged low-usage accounts; improved renewal rate from 78% to 91%.

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login metrics to target outreach; rebuilt onboarding checklist to cut time-to-first-report from 21 to 9 days.

✓ Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-EVID) Ran multi-session trainings for HR teams; handled 30–40 support tickets per day; authored 22 help-centre articles in two languages.

✗ Proficiency in both written and spoken English and Thai.: Not Met (record states professional working proficiency in English but explicitly states Thai – none, so Thai proficiency requirement is not satisfied).

Customer Success Associate – Requirements Extracted (parseable only)

- MANDATORY – Bachelor's degree in business, marketing, or a related field.
- MANDATORY – Experience in a customer-facing role, with a focus on customer success, training, or support.
- MANDATORY – Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.
- MANDATORY – Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.
- MANDATORY – Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.
- MANDATORY – Proficiency in both written and spoken English and Thai.

All other listed "requirements" are non-parseable in this reality and exert no effect.

R5 Preecha Thongdee - Do Not Advance

- ✓ Bachelor's degree in business, marketing, or a related field.: (MET-EVID) Bachelor of Business Administration (Marketing), 2016–2020.
- ✗ Experience in a customer-facing role, with a focus on customer success, training, or support.: Not Met (all listed experience is in warehouse

operations and inventory; no customer-facing, customer success, training, or support role described).

✗ Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: Not Met (no customer success domain work or customer-strategy responsibilities described).

✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-INF) Reduced picking errors from 3.1% to 0.9% by introducing barcode scanning, demonstrating data-driven problem solving and intervention design in operations.

✓ Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-INF) Supervised 14 operators across two shifts, implying ongoing communication, coordination, and people management; however, this is internal rather than customer-facing.

✓ Proficiency in both written and spoken English and Thai.: (MET-EVID) Thai and English listed with professional working proficiency and standardized test score.

PROBE-R3B-FBAT R7 F7 evaluation.txt

Customer Success Associate – Requirements Extracted (parseable only)

- MANDATORY – Bachelor's degree in business, marketing, or a related field.
- MANDATORY – Experience in a customer-facing role, with a focus on customer success, training, or support.
- MANDATORY – Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.
- MANDATORY – Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.
- MANDATORY – Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.
- MANDATORY – Proficiency in both written and spoken English and Thai.

All other listed "requirements" are non-parseable in this reality and exert no effect.

R7 Kanokwan Ratanaporn - Do Not Advance

- ✓ Bachelor's degree in business, marketing, or a related field.: (MET-EVID) Bachelor of Business Administration (Marketing), 2016–2020.
- ✓ Experience in a customer-facing role, with a focus on customer success, training, or support.: (MET-EVID) Customer Success Executive (2022–2026) and Client Support Specialist (2020–2022) in B2B SaaS and platform environments, handling onboarding, training, and support.
- ✓ Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (MET-INF) Customer Success Executive role with onboarding, renewal ownership, and proactive outreach; increased renewal rate from 78% to 91% and rebuilt onboarding checklist based on customer behavior.
- ✓ Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (MET-EVID) Used Metabase dashboards and login thresholds to trigger outreach; redesigned onboarding to cut time-to-first-report from 21 to 9 days; tracked and improved renewal metrics.
- ✓ Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-EVID) Ran 3-session training sequences for each new HR team; wrote 22 help-centre articles; handled 30–40 tickets per day with high same-day resolution.
- ✗ Proficiency in both written and spoken English and Thai.: Not Met (record shows professional working proficiency in English and explicitly states Thai – none; no basis for override because this is a direct language-skill requirement, not substitutable by other achievements).

R1 RUNYARIN L. - Advance – Verify

- ✓ Bachelor's degree in business, marketing, or a related field.: (MET-EVID) Bachelor of Arts degree in Communication Arts.
- ⚠ [10+ years in account management, digital campaign specialist, digital media consultant, and hybrid media manager roles] → Experience in a customer-facing role, with a focus on customer success, training, or support.: (equivalence explanation) Extensive client-facing account management and digital media roles demonstrate sustained responsibility for client outcomes and support, equivalent to customer success/support experience.
- ⚠ [Led and managed multiple digital and account management roles over 10+ years] → Strong understanding of customer success principles and practices, with the ability to translate customer needs into actionable strategies.: (equivalence explanation) Long-term responsibility for managing accounts and campaigns, plus recognition for revenue growth, indicates ability to understand client needs and convert them into strategic actions and campaigns.
- ⚠ [Recognized for 30% YoY revenue growth and ongoing campaign optimization responsibilities] → Excellent problem-solving and analytical skills, with a data-driven approach to designing and delivering customer interventions.: (equivalence explanation) Achieving 30% YoY revenue growth and optimizing campaigns implies strong analytical and problem-solving skills applied to performance data and client outcomes.
- ✓ Exceptional communication and interpersonal skills, with the ability to engage and educate customers effectively.: (MET-INF) Multiple account manager and consultant roles over many years require strong communication and relationship-building with clients and internal teams.

△ REQ-LANG Proficiency in both written and spoken English and Thai.:
(verification required - record silent on explicit language skills;
interview should confirm written and spoken proficiency in both languages)

R1 Krit Rattanapong - Advance

✓ Bachelor's degree or equivalent professional experience in HR operations, recruitment operations, or workforce systems: (MET-EVID – BBA degree listed under Education)

⚠ 5 years of recruitment-focused roles (2019–present) with leadership dashboards improving hiring efficiency by 40% → 5+ years of experience in HR operations, recruitment operations, talent acquisition, people operations, or workforce planning: (equivalence explanation – 4+ years directly in recruitment operations with significant measurable impact reasonably substitutes for the 5-year threshold)

✓ Experience using an ATS or HRIS such as Workday, Greenhouse, Lever, BambooHR, Manatal, Zoho Recruit, SmartRecruiters, SAP SuccessFactors, or similar: (MET-EVID – Skills list includes Workday, Greenhouse, SAP SuccessFactors, BambooHR, Manatal, Lever)

✓ Ability to build reports, trackers, or dashboards using Excel, Google Sheets, Looker Studio, Power BI, Tableau, or similar tools: (MET-EVID – Skills list includes Power BI, Tableau, Looker Studio; experience line notes leadership dashboards)

✓ Experience improving recruitment workflows, onboarding, retention, scheduling, or employee data processes: (MET-INF – Senior Talent Acquisition Executive and Recruitment Officer roles imply process ownership and improvement in recruitment workflows and employee lifecycle)

✓ Experience handling confidential employee or candidate information: (MET-INF – Recruitment Officer and Senior Talent Acquisition Executive roles necessarily involve handling confidential candidate and employee data)

△ REQ-LANG Strong English communication skills for reports and leadership updates: (verification required – record does not explicitly state English ability; interview should confirm communication level)

△ REQ-ACC Able to work hybrid in Bangkok 3 days per week: (accommodation assessment required – current and prior roles are in the same metropolitan context; feasibility of 3-days-per-week hybrid pattern should be confirmed)
